Topic: Online Image Gallery Management System.

Lab Instructor: Kazi Kowshin Raihana

# Online Image Gallery Management System

The main objectives for developing this online image gallery project in which is used to create a collection of images to organize their digital images and share images using internet. Image library is all about uploading, downloading, searching Images. In this project user can upload his or her favorite image and then view them all as gallery. This project provides lot of features to manages all the data in well manner. This project contains a lot pf advance modules.

## Modules and Description of Online Image Gallery Project:

### **Gallery Module:**

The main objective for developing this module is provide all the functionality related to gallery. It tracks all the information and details of the gallery. We have developed all type of CRUD (Create, Read, Update and Delete) operations of the gallery.

### **Features of Gallery Module:**

- Admin can add new gallery
- Admin can see the list of gallery details
- Only admin can edit and update the record of the gallery
- Admin will be able to delete the records of the gallery

## **Image Module:**

The main objective for developing this module is to manage the image data wise. This image module is the main module in this project Online Image Gallery which has been developed on PHP and MySQL. Here student can search and get php projects free download with source code. So, all image will be managed by admin. Admin can see the list of all the image and filter it according to the user.

## **Features of image Module:**

- Admin can manage the image
- Admin can edit/delete the image
- Admin can see the list of all image
- User can see image

## **Functionality performed by Project Online Image gallery:**

### **These are the functionality performed by Project:**

- Login for Admin
- Forgot password for Admin
- Edit Profile for Admin
- Change Password for Admin
- Logout Functionality
- Dashboard for Admin user

### **Manage Gallery:**

- Adding New Gallery
- Edit the Existing Gallery
- View details of the Gallery
- Listing of all Gallery

### **Manage Image:**

- Adding New Image
- Edit the Existing Image
- View details of the Image
- Listing of all Image

### **Manage Image Enlarge:**

- Adding New Image Enlarge
- Edit the Existing Image Enlarge
- View details of the Image Enlarge
- Listing of all Image Enlarge

### **Reports of the project Online Image Gallery:**

- Report of all Gallery
- Report of all Images
- Report of all Images Enlarge

### **Static Pages and other sections:**

**These static pages will be available in project Online Image Gallery:**

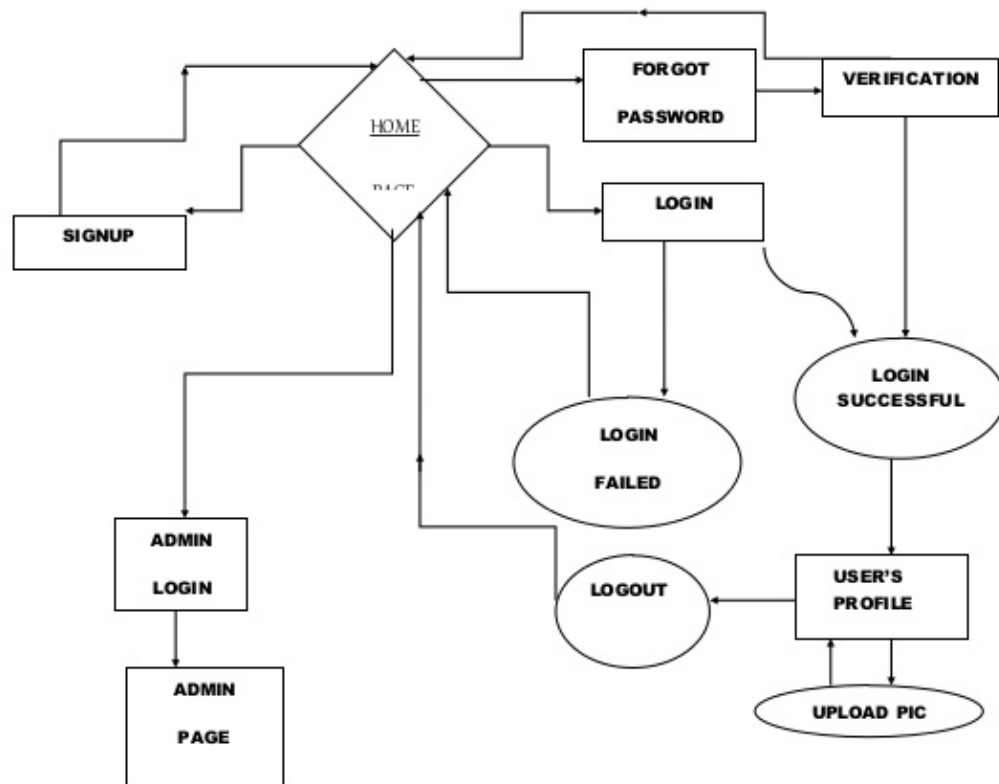

- Home Page with good UI
- Home Page will contain an animated slider for images banner
- About us page will be available which will describe about the project
- Contact us page will be available in the project

### **The Proposed System:**

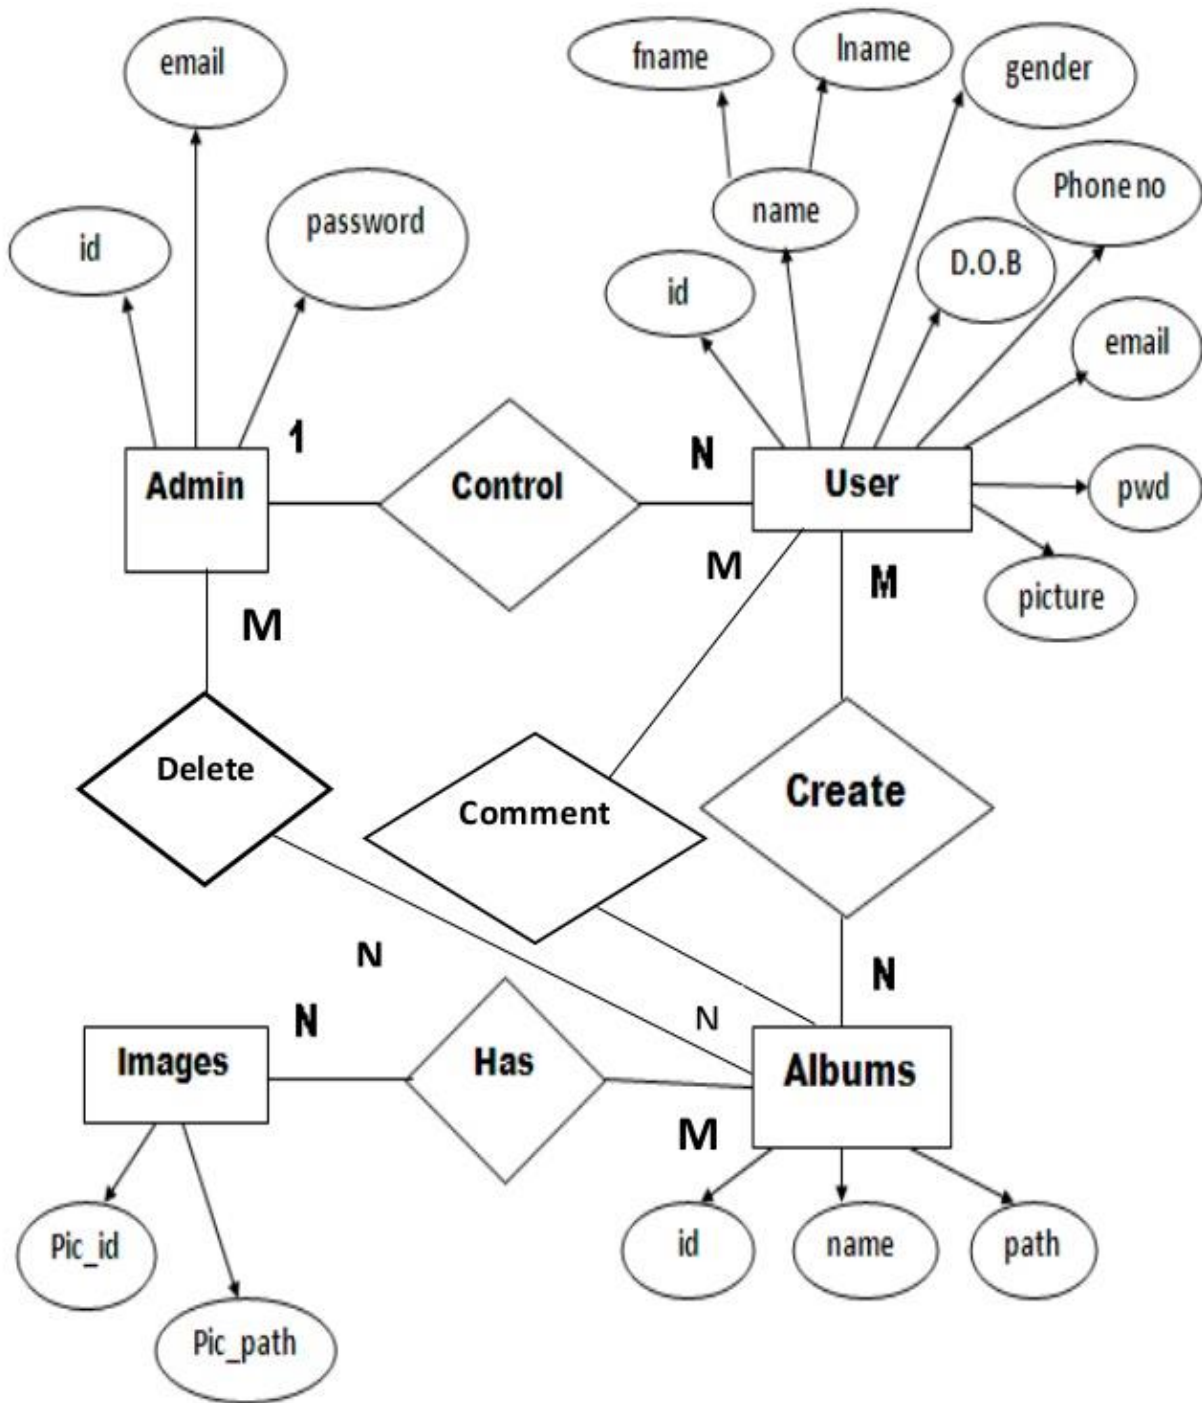

The Proposed system has image gallery of our interest to create it. The merits of the system are:

1. The user-friendly Interface
2. Quick access to the database
3. Reduce error
4. More Storage

## Application Work Flow

## Entity Relationship Diagram

So, Our Project is only a humble venture to satisfy the needs to manage their project work.
